International Journal of Public Sector Performance Management

SIMSARC 2019: Special Issue on: "Futurology: Moving towards Technologically Sustainable and Inclusive Growth"

Guest Editors:

Dr. Arti Chandani, Dr. Rajiv Divekar and Dr. Mita Mehta, Symbiosis International (Deemed University), India
Dr. B. Neeraja, Dr. MGR Educational and Research Institute (Deemed to be University), India

Technological developments have drastically changed the way in which businesses are managed. They are helping businesses to ensure transparency, efficiency and better governance. With constant evolution taking place in technology, businesses are gearing up to adapt to the increasing demand for innovative techniques. However, the fast-paced advancement in technology results in the entry of new and innovative technologies which often tend to disrupt the existing market. It is therefore the need of the hour for businesses to sustain themselves in a way that embraces innovation and makes the most of it, without posing a threat to survival.

For this special issue, the Guest Editors will be inviting substantially extended versions of selected papers presented at the [Symbiosis Institute of Management Studies Annual International Research Conference \(SIMSARC 2019\)](#) for review and potential publication, but are also inviting other experts to submit articles for this call.

This special issue welcomes qualitative as well as quantitative and mixed methodologies, as long as they are well grounded in the literature. Please refer to the following articles:

- Dana, L.P. & Dumez, H. (2015) 'Qualitative Research Revisited: Epistemology of a Comprehensive Approach,' *International Journal of Entrepreneurship & Small Business* 26 (2), October 2015, pp. 154-170.
- Dana, L.P. & Dana, T.E. (2005) 'Expanding the Scope of Methodologies Used in Entrepreneurship Research,' *International Journal of Entrepreneurship & Small Business* 2 (1), 2005, pp. 79-88.
