How to access your Coursepack(s) as a student:

Once your course materials have been created, you will be sent a course link to your course. The course URL will look similar to this: http://cb.hbsp.harvard.edu/cb/access/6385986#. The numbers at the end of this link are the specific identifier for this unique course.

Once you have accessed the link to your respective Harvard Business Publishing coursepack, you will navigate to this screen. If you have never registered on our educator’s site, please click on “Register Now”. If you have already registered as a student when accessing a prior course on our site, please login with your login credentials at “Login Now”.

After clicking “Register Now,” this is the screen you will navigate to in order to begin your short registration process. Please create a username & password, and fill in the other required fields.

Once your registration is complete (you will receive an email confirmation), you can click the “Login Link” to log into the course with your newly created username & password. If your coursepack has been designated as ‘Student Pay’ you will be guided through payment instructions.

You are almost finished.

Login here. This is required to access the material assigned to you.
After entering your login credentials, you will be brought to your course page. By accessing the course through the course link, the course materials have been effectively “imported” into your web user library. From this course page, you will be able to open your materials. Please take note of the End Date as access will expire after this date.
